

Joe Cape, M.A., M.Sc.

Málaga, Spain (UK / Irish / EU National)

Email: joe.sc.cape@gmail.com

Tel: +34 662513905

I am an IT professional with a strong analytical mind and good problem solving skills. I have gained sound knowledge of web development best practice. I have over ten years of commercial experience guiding and developing projects with open source web development technologies.

Skills and Achievements

Teamwork and leadership

- I have taken a key role in client liaison and in ensuring ongoing client satisfaction throughout project development while engaging in contract work for **The Open University** and **Aleido Learning**.
- I have been responsible for reviewing and supervising the work of others as the lead developer in projects for **University of London Computer Centre**, **Epic** & **Aleido Learning**.

Project management, time management and organisational skills

- I attained Foundation and Practitioner accreditation in the **PRINCE2** methodology in 2010.
- I have used my strong personal management skills to deliver IT projects for small companies with no IT staff, and to ensure ongoing client satisfaction over the last decade of working remotely.

Software development and other IT skills

- Programming skills in: php (10+ years), Java (3 years), MySQL (10+ years), JavaScript (10+ years).
- I stay up-to-date reading books and blogs; attending meet-ups and conferences, such as the Full Stack Fest 2016 in Barcelona and the 2019 Global MoodleMoot in Barcelona.
- I have built plugins for Joomla! and Moodle that perform functions such as admin reports, quizzes, integration with external systems and web services.
- Expertise with managing source code in team projects using Git and subversion.
- Confident with email, MS Excel, Outlook, Word, Project and other office applications.
- Other skills: Agile development, XHTML, HTML5, XML, CSS, CodeIgniter, AJAX, YUI, ReactJS, AngularJS, PostgreSQL, linux and apache administration, Amazon Web Services (S3 and DynamoDB), NoSQL, Big Data, Docker, Zend Framework (ZF1 & ZF2).

Written and verbal communication skills

- I have excellent written communication skills and the ability to write formal documents.
- I have used my good verbal communication skills to conduct TEFL classes as an English teacher and to give a thirty minute oral defence of my MSc dissertation.

Languages

I am a fluent Spanish speaker.
